		\$	\$		
		\$	\$		
		\$	\$		
Goal and Implementation Plan					
Please explain (i) your goal and action plan to be implemented with respect to this request, (ii) how it will improve health and wellness, and (iii) how many people will be impacted by it (please use additional paper if necessary).					
<p>Post-COVID, in the work-from-home world we have everything we need for our day-to-day job duties available on our computers. This made desk jobs even more sedentary. Employees in our office have often said it would be nice to have desk ellipticals for both productivity and overall wellness.</p> <p>To ensure everyone gets involved, we will make a small competition out of it. We have a competitive group of (7) seven employees, so this is sure to get everyone engaged in the idea of some exercise. This time of year can be stressful with due dates and year-end reports to complete. Even small amounts of exercise can help to alleviate this workplace stress. The added activity will help to improve our moods during the winter season and the small competitions will help us communicate and engage with one another to build a stronger team.</p>
