Mr. Flynn,

I would like to take a meeting with you to discuss several things that I would prefer to keep between you and I and not on social media which appears to be imploding with migraine level bickering.

One of the things I would like to discuss is the apparent cost of right to know requests. I can't begin to know what Mr. Long has asked for, I know only that he says he has many, many documents. I know what I have asked for, and with the exception of a couple requests, I can't imagine that basic financial documents would require much legal review.

Another thing I would like to discuss with you is that there appears to be some animosity between you, the mayor, and Mark. I can tell you that he's not really sure why. If this is again because of Mr. Long, I want to take the opportunity to inform you that while Mark has, indeed, spoken to him, I have been present for the conversations, and Mark has attempted to clear up some of his misconceptions about several items. For example, Mr. Long was (or maybe still is, who knows) convinced that someone in the borough profited \$500,000 from the building of Bath View. Mark explained to him about the purpose of escrow accounts, but I don't know that the explanation helped. The latest thing is about your bonding. Something about it being upped to one million dollars. Mark tried to explain to him that his is also one million dollars, and that if you had upped yours to that amount, it was normal and you had actually been way underinsured. I want to assure you that Mark has not been involved in whatever is going on in the borough. My own right to know requests are because I was trying to understand what was playing out on social media. I prefer to evaluate the records and come to my own conclusions.

There are some other, much more sensitive things that I want to discuss with you. I have a fairly flexible schedule right now, and I would like to meet with you to speak to you one on one as these are things that should not be aired publicly.
