Mr. Flynn and Mr. Schnee:

Attached is a one-page overview of RTK Corpus by MIKE OS, a private, self-contained, AI-assisted research system for Pennsylvania's Right-to-Know Law.

The current corpus includes:

- 42,998 OOR docket
- 43,708 indexed OOR documents
- 1,671 court documents
- 2,211 verified authority rules

Official OOR and Pennsylvania appellate sources are checked nightly.

New or changed authority is added only after validation and remains linked to source and pinpoint. Docket results, final determinations, and administrative case-file completeness are tracked separately.

Access is offered at \$550 per month or \$5,000 per year for unlimited research by one borough and named users, subject to reasonable use and written license terms. Larger deployments are available separately.

Mr. Schnee, the flyer's "next edition" language is a respectful nod to the title and update model of your current PBI publication, *The Right-to-Know Law and the Sunshine Act: A Practice Guide*, 5th Edition.

RTK Corpus is an independent product and is not affiliated with or endorsed by you, PBI, the Office of Open Records, Pennsylvania courts, or the Commonwealth.

Important limitations: RTK Corpus and MIKE OS provide research software and information services only. They are not a law firm and do not provide legal advice, legal representation, or legal services. Use does not create an attorney-client relationship. AI-assisted output may contain errors or omissions. Users must independently verify all material against official sources and consult licensed Pennsylvania counsel. No warranty is made as to completeness, accuracy, timeliness, outcome, or fitness for a particular legal matter.

If you would like a private demonstration, please reply to this email.
