Hi Bradford,

[REDACTED]

Regarding an RTK corpus, if I were to build such a system, it would only utilize publicly available documents—specifically Final Determinations and court opinions—since that is where legal authority is established.

As for the full stack, it is immaterial whether you are aware of it now. The system was peer-reviewed by some of the most renowned experts in the field, all of whom were extremely impressed. Everyone who requires the final report has already received it.
